1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on the PTO-892 teach other controlled valves with limit switches.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a limit switch that is usable in a digital valve positioning system that includes the specific structure of a position sensor that indicates the position of the valve, a memory for the limit switch separate from a valve controller memory, a microprocessor for the limit switch that is capable of linking to a separate microprocessor for the valve controller and is coupled to the limit switch memory, wherein the limit switch microprocessor is responsive to the position sensor and set point data stored in the limit switch memory to generate a limit switch signal output as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
